(Powder Products)

In addition to the supply of augers, funnels, and other accessories; AUGER FABRICATION can supply complete auger filling assemblies for use with Vertical Form-Fill-Seal (VFFS) equipment. AUGER FABRICATION's extensive experience in this field can accommodate all types and configurations of VFFS machines.

Use this page to specify an auger filling assembly for your equipment. Additional details or other, special requirements can be sketched on the worksheets at the end of this catalog.
